Advanced

SMS Multi-factor Authentication

Allow your users to add an extra layer of security to their account. Once enabled, integrated and configured, users can sign in to their account in two steps, using SMS. [Learn more](#)

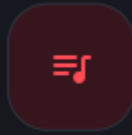

MFA and other advanced features are available with Identity Platform, Google Cloud's complete customer identity solution built in partnership with Firebase. This upgrade is available on both the Spark and Blaze plans.

| Ade Rainhard Pasaribu |  <p>The screenshot shows a music discovery application interface. At the top, it says "DISCOVERY MODE". Below this is a section titled "Cari Musik" (Find Music) with a subtitle: "Preview dibatasi supaya cepat. Ketik judul atau artis untuk hasil lebih spesifik." (Preview is limited to be fast. Type the title or artist for more specific results). It indicates "7 lagu tersedia" (7 songs available). There is a search bar with the placeholder text "Cari lagu atau artis" (Search for songs or artists) and a microphone icon. Below the search bar are three tabs: "Rekomendasi 7" (selected), "Populer 7", and "Disukai 0". The "Rekomendasi" section displays three tracks:</p> <ul style="list-style-type: none"> <li><b>1 Strangled</b> by Dystopia: 200 plays, 90 likes.</li> <li><b>2 New World</b> by The Overtrain: 180 plays, 75 likes.</li> <li><b>3 Au Revoir</b> by Ellsya: 150 plays, 60 likes.</li> </ul> <p>Each track has a play button and a heart icon. The bottom navigation bar includes "Beranda", "Cari" (selected), and "Pustaka".</p> |
